DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 5, 17 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Faulk (5,706,182).

Faulk discloses converter topologies with multiple windings in Figs. 2-8. The loss free impedance (L_1/L_4), filter capacitor (C2 and C3), transformer (L_{P1}/L_{S1}), electronic device (SW1/SW2), rectifier (D_F), output capacitor (OUT) and load connected to the output capacitor.

Allowable Subject Matter

3. Claims 6-16 and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 12/22/08 have been fully considered but they are not persuasive. In response to Applicant's argument that Faulk includes additional structure (rectifier, capacitor (C2, C3)), not required by Applicant's invention, it must be noted that Faulk disclose the invention as claimed. The fact that it discloses additional structure not claimed is irrelevant. In response to Applicant's argument that Faulk does not

include certain features of Applicant's invention, the limitation on which the Applicant relies (i.e. loss free impedance is connected directly between the AC input voltage sources and the electronic device and electronic devices generate a square wave voltage) are not stated in the claims. It is the claims that define the claimed invention, and it is claims, not specification that are anticipated or unpatentable.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
